

## **INTERACTIVE BROKERS (U.K.) LIMITED RETAIL CLIENT NOTIFICATION**

In accordance with the Financial Conduct Authority rules, we categorise each client as either a retail or professional client.

This is to notify you that IBUK has categorised you as a retail client. Clients of the retail client category benefit from a higher degree of protection than that afforded to the professional client category. IBUK generally categorises all clients in the retail client category unless the client provides information to show that it is authorised or regulated to operate in the financial markets.

If you wish to be re-categorised as a professional client and are in a position to provide the supporting information for our consideration, please send an Inquiry/Trouble Ticket from Account Management.

I acknowledge receipt of this Notification.
